

## Fanatical Support® is why over half of the Fortune 100 host with us.

We think a seamless portfolio of dedicated and cloud hosting services is better than making people choose one or the other. We know businesses trust us to help them grow because we actually support our products with real, live people. We'll choose open technologies, development communities and low costs over proprietary lock-in and high prices any day. And we don't just deliver these products, we back them with our award-winning **Fanatical Support**®.
